## VOCATIONAL JUNIOR COLLEGE

(Recognized by Board Of Intermediate)

### Message from the Director MESCO Diagnostic Center

We at MIMCS have a dream to see our students get the very best in every way and be competitive in all respects. They are provided all the facilities, which are mandatory as well as optional. We want to see the day where the students of MIMCS themselves be cherished like popular brands.

As we know, every long journey starts with small steps. A persistent and efficient traveler can reach any destination, *Insha Allah*. So do we aspire to reach the heights of quality and consistency.

Apart from the regular subjects that are taught as part of curriculum, we also intend to build the students' character in a strong way and we make every effort to do that, this in turn enables the over all development of the students more uniform.

Please wish good luck for us.

**Dr.Iftekharuddin Mohammed.**

**Director  
MESCO DIAGNOSTIC CENTER**
